About Us

Since commencement in 1996 Al Mulla Industries has proven to be the market-leading supplier in the Middle East and North Africa Region. Our factories are equipped with the latest state of the art technology which is frequently upgraded. The quality of production serves the biggest values in our organization to contribute to our valuable clients.

Apart from the UAE clientele, we have a supply chain across Saudi Arabia, Kuwait, Qatar, Muscat, Kenya, Ethiopia, United Kingdom, Bahrain, Yemen, India, Pakistan, Afghanistan & Morocco since the past decade we have successfully maintained the CRM and the acceptance of our products are immense.

The Value Of Our Company

Customers of Al Mulla Industries are leaders in their respective industries and are devoted and faithful to the company. Their long-standing affiliation with us is indication enough of their trust in our timeliness and products.

INNOVATIONS

AMI has grown by 95% since the past 5 years, as it always tends to discover new methods of production which will result in desirable solutions for the clients.

QUALITY

With the latest HSE standards, the quality of the finished goods ensures the finest and the cleanest in the market.

VALUE FOR MONEY

AMI has maintained its competitiveness in the market for years by staying sustainable in the industry and adhering to the most recent tactics and trends.

DEDICATED CONSUMERS

AMI has maintained its big clients for a long time by providing them with a committed team that is customer-focused.

Our Go Green Initiative

At Al Mulaa Industries, we are the nexus of business excellence and environmental stewardship. Our mission revolves around pioneering Eco-Friendly Initiatives, focusing on three pivotal domains:

Recycling Revolution

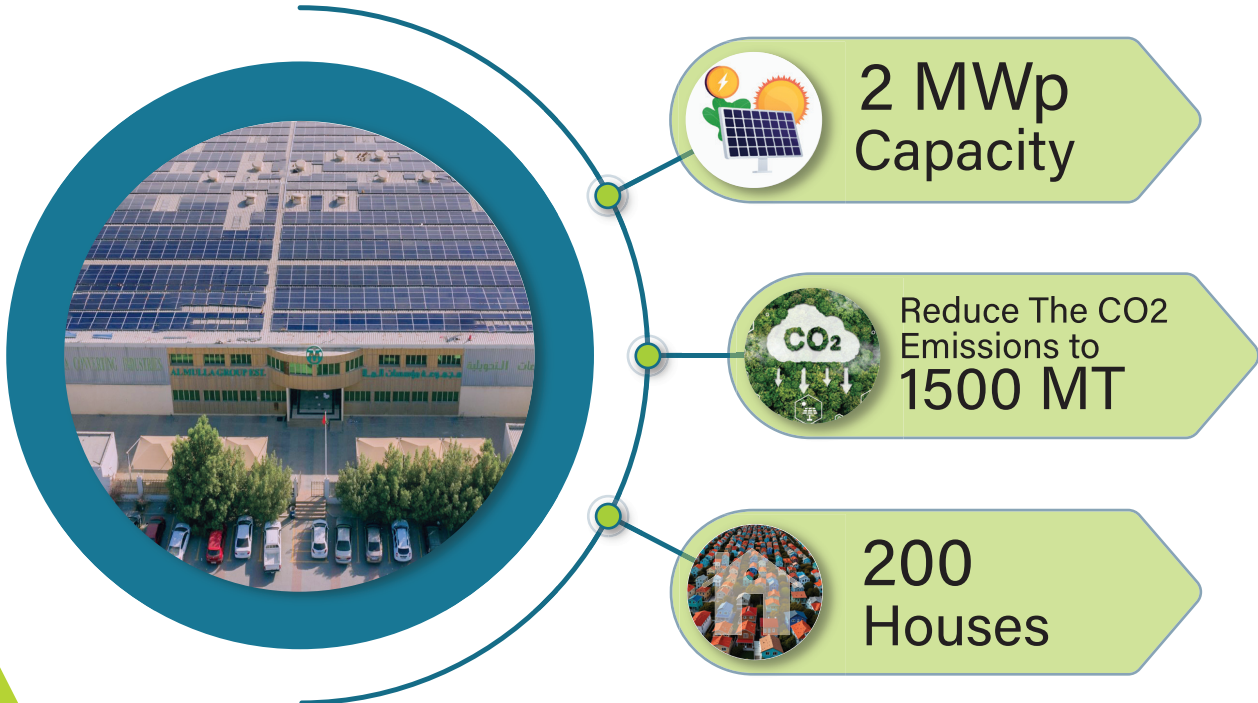

The recycling revolution is transforming tissue manufacturing by incorporating post-consumer recycled fibers into production, reducing waste and conserving resources. Advanced processes ensure high quality output while minimizing environmental impact. Adopting sustainable practices to lead the industry in eco-friendly innovations

Zero Wastage Mastery

Al Mulla Paper Tissue Factory maximizes resource efficiency by converting all by-products and scraps into reusable materials. Our advanced recycling and waste management systems ensure minimal environmental impact while maintaining high-quality standards. Embrace our commitment to sustainability and innovation for a greener future.

Solar Power Leadership

Al Mulla Industries drives sustainability by harnessing solar energy to power our production processes. Our cutting-edge solar installations reduce carbon emissions and lower energy costs. We lead the industry in eco-friendly practices, setting a standard for green manufacturing.

“ Our mission to redefine industry benchmarks, where the harmonious coexistence of environmental consciousness and business prosperity takes center stage. Witness the seamless synergy of innovation, sustainability, and success at AMI. ”

Our Factories

AMI is committed to upholding a strong R&D Department, guaranteeing that each product that leaves our factories reaches the highest level of quality and closely follows customer requirements. Strong technical, research, and product development specialists from various international backgrounds strengthen our R&D department. They work together harmoniously to drive the team toward rapid expansion and ongoing progress.

Our state-of-the-art production facilities utilize PCMC machines equipped with advanced Italian technology, ensuring unparalleled product quality. This cutting-edge machinery enables us to produce tissue products that are not only flawless but also 100% TOUCHFREE, enhancing both hygiene and user experience. The precision and efficiency of the PCMC machines minimize imperfections and maintain consistent performance across every batch. Our commitment to utilizing top-tier technology reflects our dedication to meeting and exceeding client expectations. With this innovative approach, we guarantee superior products that stand out in the market for their excellence and reliability.

About The Group

Al Mulla Group is a multidisciplinary conglomerate, engaged in a wide spectrum of business activities. Founded in 1974, Al Mulla Group proudly operates several prestigious subsidiaries in the Middle East and has further plans to expanding within the region. Over the years, Al Mulla Group has maintained comprehensive corporate governance in every sphere of investment it has embarked upon, and it continuously focuses on achieving industry benchmarks within its expanding portfolio.
